G&S Acoustics’ Baffles (BA) are effective sound-control products for **isolating noise** and **absorbing sound** in open ceiling systems. Available with fabric, white texture, PVC or nylon finishes, our Baffles also define open spaces and **add depth to ceilings**.

Hang our Baffles from existing ceiling grid systems or from roof decks and bar joists in open ceilings. Custom Printed Baffles are used for **advertising, branding and decoration**.

Baffles are most effective in gymnasiums, natatoriums and open offices, as well as for isolating noisy areas.

Flap mounting adds 2” to height of Baffle.

### Core Sections

- **Grommet Mounting**
- **Flap Mounting**
- **Spline Mounting**
