

BANNERS (BN)

G&S Acoustics' Banners (BN) are our **most economical sound-absorbing ceiling product**. Draped throughout an open ceiling, Banners effectively reduce the sound reverberation in any room. Banners can also be used with an acoustical ceiling to enhance its sound absorption.

Our Banners are mechanically fastened to the ceiling deck and pulled taut to the ceiling to add design, color and outstanding sound absorption to your room while remaining out of harm's way. Since many large venues, such as arenas, stadiums and cafeterias have hard ceilings, Banners are an ideal option for acoustical treatment.

SOUND ABSORPTION

BN2PP: 2", PVC, Perforated, 1.2 pcf

Hz	125	250	500	1000	2000	4000	N.R.C.

CORE

.75-1.65 pcf fiberglass, various thicknesses available

SIZES

Any size up to 4'x25'

MOUNTING

Painted washers
Stiffeners

FINISH

Nylon, PVC

EDGES

Natural

FLAMMABILITY

All components have a Class "A" rating per ASTM E84
