

RESOLUTE PLUS (RP)

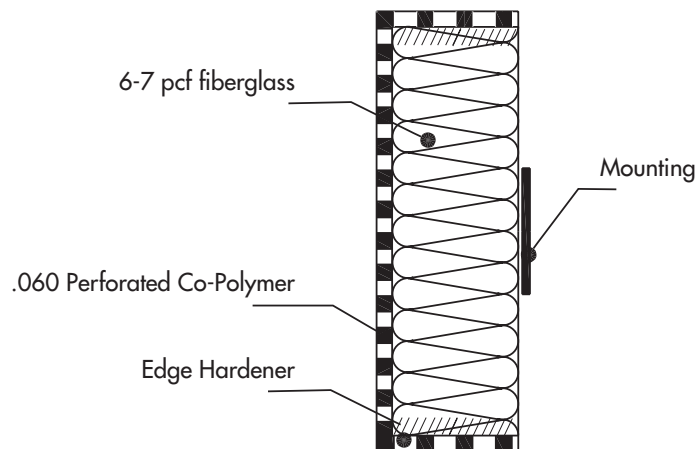

G&S Acoustics' Resolute Plus (RP) sound-absorbing wall and ceiling panels are one of our **most durable** products. In addition to their durability, they are also **superb sound-absorbing panels**.

Resolute Plus panels are composed of a resilient, perforated .060 co-polymer cover which is laminated to a 6-7 pcf fiberglass core. For the **wall panels**, the co-polymer sheet is shaped to form a pan that encases the fiberglass core. Corners are heat-welded and wrapped to keep them from opening.

Our Resolute Plus panels are **designed to deflect on impact and return to their flat position**. Resolute Plus' memory, durability and acoustical performance make them effective sound-absorbing panels for gymnasiums, corridors, correctional facilities, airports and similar environments. Resolute Plus panels should be **installed with a 1/8" reveal** between the panels.

CORE SECTION

SOUND ABSORPTION

Hz	125	250	500	1000	2000	4000	N.R.C.
RP 1	.05	.26	.82	1.08	1.05	1.02	.80
RP 2	.32	.80	1.29	1.25	1.14	1.06	1.10

CORE

6-7 pcf fiberglass,
1" or 2" thick

SIZES

Custom sizes, square or rectangular shaped, up to 4'x10'

MOUNTING

Impaling clips
Install with 1/8" reveal at the panel perimeters

FINISH

Exposed, perforated .060 co-polymer in pan shape

EDGES

Square
Hardened

FLAMMABILITY

All components have a Class "A" rating per ASTM E84
