

# TACKABLE WALL PANELS (TW)

G&S Acoustics' Tackable Wall Panels (TW) are **inexpensive, excellent tackboards** with minimal sound absorption. Covered with fabric or vinyl, our TW panels provide years of service without breaking down. The TW panel's mineral fiber core performs as a tacking surface while retaining its density, size and shape over time.

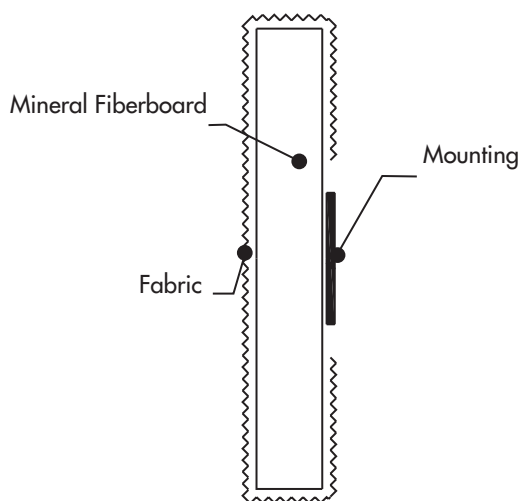

TW's mineral fiber core:

- Does not absorb or expel moisture
- Will not warp, expand or shrink
- Is lightweight
- Is easy to install
- Looks attractive

TW panels are available with sheared edges or wrapped edges. Choose TW panels for places that need decorative and tackable wall panels, such as classrooms, presentation rooms or conference rooms.

## CORE SECTION

### CORE

1/2" and 3/4", mineral fiber board

### SIZES

Custom sizes up to 4'x10'

### MOUNTING

Adhesive

### FINISH

Fabric, vinyl

### EDGES

Square

### FLAMMABILITY

All components have a Class "A" rating per ASTM E84
